

CropBioLife

CONCENTRATE NUTRIENT SYNERGIST

Improved Nutrient Uptake

Use with confidence on: all plant types including grapes, olives, vegetables, natives, flowers, lawns and fruit trees.

Directions for use:

Mix with water and apply via spray directly on foliage. Ensure as much foliage is completely wet by spray as possible. Avoid spraying during heat of the day. Best results if leaves remain wet with spray as long as possible. Early morning sprays are best.

DOSAGE Rate: 0.5 to 2 mls per litre of water. Mix only enough to use.

Do not store mixed product longer than 24hrs.

Specific application rates and spray protocols for a variety of crops and plants are available on our web site. www.cropbiolife.com.au Do not apply if rain is expected within 6 hours. Do not mix with other chemicals.

Safety facts:

CropBioLife is non toxic and safe when diluted. Will not harm food crops, people, animals, birds or ponds. Use caution with concentrate: If contact with eyes occurs flush with clean water. If ingestion occurs rinse mouth with water and drink plenty of water.

Storage and Disposal:

Keep closed in original container and store in dry, cool place out of reach of children. Do not store in sunlight. for prolonged periods.
