

# Enviro Magnesium

A magnesium true solution for use in organic production.

## Guaranteed Analysis:

Magnesium (Mg) 4.0%

Derived from magnesium sulfate

**For use in organic production as a fertilizer in foliar, fertigation and soil applications to supplement magnesium levels on agricultural crops.**

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

## Directions for Use (Use only as Directed):

- Avoid foliar application in extreme weather conditions such as high temperatures and poor drying conditions.
- Aerial application – minimum of 5 gallons of water/acre; Dilute sprays – minimum of 20 gallons of water/acre or apply sufficient water to deliver spray uniformly on leaf surfaces.
- Exercise caution when applying to any crop during bloom, as many factors can affect fruit set and final fruit quality.
- Enviro Magnesium is compatible with most agricultural chemicals and nutrients. Should be applied in conjunction with tissue and/or soil analysis.
- **Consult a NutriAg representative for application timing and necessity of its use.**

Apply no more than 2 quarts/acre/ application.  Apply no more than 8 quarts/season.  Always apply toward the end of an irrigation cycle.	This product is compatible with many liquid fertilizers.  Fertilizers vary in analysis and quality, and should be jar tested with this product before use.  Apply up to 2 quarts/acre at planting or as a side dress.

\*Application rates vary according to specific crop requirements, management objectives, soil nutrient availability and/or environmental conditions. Lower rates are recommended for general crop maintenance or when applying multiple times per season; higher rates are recommended when applying a minimum number of applications to crops that require repeat applications, or where more severe deficiency is present. Higher volumes of water should be used for higher rates of fertilizer. For application timing charts, please consult a product manual. Consult your NutriAg representative for specific crop recommendations.
